

Electronic Commerce Services

NDC Electronic Commerce Services offer additional functionality to NDCMedisoft that improves reimbursement, expedites collections from patients, and improves patient care.

NDC Electronic Remittance simplifies posting payments to patients' accounts.

NDC Electronic Claims Processing* reduces rejections and reduces the time to be paid.

NDC Statement Processing* improves your cash flow.

NDC Prescription Processing reduces errors, phone calls and patient wait times.

e -Prescribing: Fast and Reliable

Sending new and refill prescriptions has never been easier than with NDC Prescription Processing! With this service from NDCHealth and OnCallData, you can send accurate prescriptions electronically directly to any pharmacy, saving both you and your patients valuable time. Spend less time juggling calls to and from pharmacies, and start sending electronic prescriptions today with NDCHealth and OnCallData.
